Chief Engineer
Radio Station W X T U (FM)
1 Bala Cynwyd Plaza
Bala Cynwyd PA 19004

Dear Sir,

I would like to congratulate WXTU on the new sound of Country 92. I enjoy your country music programming, and I find that the other members of the family (my wife and son) frequently listen to WXTU as well.

This is to report that WXTU provides excellent reception 100% of the time up here in the Lehigh Valley near Allentown, Pa. My reception on the morning of Thursday, May 31, 1984, is typical of the condition in which your broadcasts are heard here regularly. On this occasion I tuned in at 9:51 A.M., Eastern Daylight Time, and continued to log your program of recorded country music and announcements (the Doug Weldon Show) until 10:53 A.M., E.D.T.

WXTU's signal on 92.5 megaHertz was very strong and clear, requiring only a one-eighth turn of the volume control to provide a perfect audio level. There was absolutely no fading or interference, and my reception was completely noiseless. The tonal quality was excellent. As the result of such favorable conditions, your programming is heard regularly with 100% clarity and readability at this distance from Philadelphia of 60 air miles. It is a pleasure to hear 92 FM reach out in such fine shape, and you are to be congratulated on the power and efficiency of your transmitting equipment.

WXTU was heard on this occasion on a Zenith model C-845 8-tune AM-FM set, using as an antenna merely a 3 ft. whip connected inductively to the set's built-in antenna (the A.C. power cord). You are heard equally well on our Zenith stereo console with a Yagi antenna in the attic directed toward Philadelphia. My location is along the Lehigh River, 2 miles north of Walnutport, Pa., and 60 miles from Philadelphia, at an elevation of 350 ft. above sea level.

Please confirm my reception of station WXTU on 92.5 megaHertz as reported above. I shall be happy to receive your reply, kindly verifying the fact that I was tuned to your broadcast of Thursday, May 31st. Return postage is enclosed for your reply. As proof of my reception, I give the following log of the program items to which I listened:
